

RHEUMATISM CAN BE CURED.

That rheumatism is one of the most obstinate of diseases most physicians will declare and many a sufferer will hold upon the human system its victim for a period of great suffering equally true. Modern methods in medicine are, however, doing much to relieve the sufferer from the horrors of rheumatism. The following is a treatment of the disease great success follows the faithful use of these prescriptions: Have a good druggist prepare anti-rheumatic tablets composed of 1/2 grains Sodium Bicarbonate, 1 grain Salicylic Acid and 1 min. Wine of Colchicum. Take one of the tablets before each meal, following immediately with a glass of water. After each meal take one tablespoonful of a prepared emulsion of cod liver oil. Extract of Buchu 1 dram Fluid Extract of Horae Nettele, 1/2 oz. Ament Condensed Fluid Extract of Liverwort and 1/2 oz. water. Any first-class pharmacist can compound these prescriptions. The treatment, when continued for one month, is reported to work wonders, even in cases that have resisted other medicines.

In electric light, as well as in water, the municipal employee usually has no voice in the management of his respective cities for similar work, and also usually work out eight hours, while the non-municipal employees in the highest paid positions—never get more, and often receive less, per day than the municipal employees, and sometimes work nine and ten hours, instead of eight, that is practically universal to all public employment. In Norway plants are, and apparently always have been, of and for the public. The same is true of the Detroit plant. In the party politics is concerned, in all municipal plants trade union conditions prevail, and in the latter, those who are not members of labor organizations are free, employed, the only exception is in the electric light plants in Allegheny, but here again, as in the steeling works, the public and the gas works of the Philadelphia gas works when public and private management existed side by side, the spoils system in municipal plants brought companies into close touch, and also with the city government, with organizations and city governments."

The prisoners will not be brought until time for the trial to begin.

ELKS ARRIVING FOR GREAT FESTIVITIES

(Continued from First Page.)

national convention in Philadelphia during the coming week.

The Pittsburgh delegates will leave for the Quaker City to-morrow morning.

hundred suitcases containing the finest midnight attire ever presented a Philadelphia street.

The uniforms of the Pittsburghers who include over a score of millionaires, consist of a Tuxedo suit, white gloves and white spats, with white buttons. Each delegate has been instructed to "pin back the cape of the Tuxedo" and "hold the spats in the air" as they "go down the aisle." No rain checks will be issued for the Pittsburghers have each been allocated three or four extra raincoats which will be used, rain or shine.

JAPANESE ARRESTED FOR CROSSING THE BORDER

SAN ANTONIO, TEXAS, July 14.—The immigration inspectors at Laredo, on the Mexican border, today arrested more Japanese near Green St. yesterday, making their way into the United States. The Japanese were arrested in all that have recently been arrested. All of them will be sent to the Federal House of Detention for deportation to Japan.

Eight Convicts Escaped

SAN ANTONIO, July 14.—At Delhart, Texas, last night eight convicts sawed the jail ceiling and escaped by means of their blankets.

One of the most enthusiastic Richmond Day men is Chairman R. S. Tuttle of the committee on attendance. N. S. Tuttle, who is a member of the committee, has made every possible arrangement for handling the crowds, and figures show that there is accommodation for everybody in Richmond to-day. The committee will be in charge of the committee rooms and beginning tomorrow will practically canvass the town for Richmond Day visitors.

The committee, in addition to Tuttle, consists of J. C. Beveridge, N. D. John, A. Fremant, J. J. Ware, Thomas E. Wheelwright and J. W. Thomas. It is a working committee with working chairman. The organization is not merely a social or a trade organization, but a business establishment generally in making day a success, to secure their aid and cooperation in interesting and helping in the day.

It is the hope of the committee that practically all Richmond may be

Chairman Tuck said last night that his committee had been held back by the fear of lack of trains, but that now there was an abundance of room; the committee will turn loose in earnest and have something doing between now and Thursday all the time.

Chairman Tuck had not decided whether he would keep a brass band on the street for the next two days or whether he would placard the town as though a circus was coming. However he works it, no one will be allowed to see the exhibition.

ALDERMEN TO MEET TO-NIGHT

A great deal of pressure has been brought to bear, and the general verdict of the public being so manifestly in favor of the appropriation the probability of the aldermen's phre-

prety 'cibee' call, and that it is going to have, if it gets through. The greatest and grannest in the city, and the exposition. Every loyal and progressive colored citizen should endeavor to be present and swell the crowd on that day, and make Richmond, our city, and the masses

owed to forget that Thursday is "Richmond Day."

Other Work Done.

The plans of the reception committee have not been made public. Mr. James R. Gordon is chairman, and has

with him Mr. John Stewart Bryan, Mr. O. H. Berry, Mr. Frank D. Williams and Mr. Coleman Wortham.

In a general way, this committee will be in charge of the hospitalities of the Richmond and at the Virginia Buildings, both of which will be used for the day as Richmond headquarters, just how this committee

If Councilmen and Aldermen hold all the meetings that have been set for to-day and transact all the business that is on the docket they will be in the City Hall all night.

The Committee on Light, which is expected to meet at 7:30 o'clock, has the same thing to do.

There are two or three unimportant committee meetings announced for Tuesday and Wednesday, but all of the exciting business of the City Fathers for the present week will be disposed of to-night.

translates the word hospitality has not been learned, and possibly they will not say until Thursday, when they meet Richmond people at the Richmond Hotel.

Certainly, thorough work has been done by the transportation committee.

Not only have they solved the problem of carrying all Richmond to and from the exposition in three days, but they are prepared to guarantee to each person a seat and a comfortable trip. Mr. M. C. Patterson has been in charge of

his committee, and has had to assist him Mr. O. H. Funsten and Mr. Willam L. Lay. The committee is now busy, and the probability is that it will be disposed of in a few minutes.

At 8 o'clock also the special committee which has in hand the investigation of the Mayor's charges against the Finance Committee will hold what will probably be its final meeting. This committee has been taking the

the exposition and see there what the negro has placed before the world, a showing of which any nation or race could be justly proud, and which, as to magnitude and diversity of scope, headaches, sour stomach, indigestion or colds. It's liquid—afford immediately—pleasant to take. So all drug stores.

has never before been equaled by the negro in this country.

The United States government appropriated \$100,000 to the Negro Development Company to foster this enterprise, and every negro, if he be able, who fails to give his support to this worthy and grand affair is worse than an ingrate.

"Just outside of the main buildings of the restaurant, with a seating capacity of about thirty, are several small, clean, accommodations at very reasonable prices. A good meal can be procured for the very small sum of twenty-five cents. There are various buildings and hotels near the main building, conducted on first-class, conservative principles; all catering to the welfare and comfort of the colored visitor.

"I would not like to be misunderstood.

In this matter, as I am not a stockholder in the exposition company; neither am I an exhibitor, nor have I any ax to grind by boosting and praising the exposition and the negro exhibitors, but am simply a well-wisher to a good, grand and worthy enterprise, which should have the unqualified support of

"Next Thursday, the 18th instant, has been set apart as Richmond Day of the exposition, and we would advise every colored man and woman in Richmond to go down to that day, and make Richmond Day the greatest and grandest of all days at the exposition. Every loyal and progressive colored citizen should endeavor to be present and swell the crowd on that day, and help advertise Richmond, our city, and make the day the most successful day of the exposition."

PHYSICIAN AS
JEKYL AND HYDE

Looked After Patients by Day
and Robbed People at
Night.

Special to The Times-Dispatch.
COATSVILLE, PA., July 14.—Having for more than a year led a Dr. Jek and Mr. Hyde existence, the burglar of night and profligate of day, who has been known in this section as the "Red Headed Boy" of Westchester, has confessed to many small burglaries, among them being several post-offices. He is now in West Chester jail. Holbrook went on horse back to Hagerstown, West, to inspect the cases. At night he drove long distances from home, tied his rifle to the woods, and then went forth as a burglar. The particular thefts he proved his undoing were the thefts at West Chester and at Baltimore. In each of the cases, Dr. Holbrook broke into the railroad station in the dead night, stealing all the mileage and other railroad tickets, the change out of the cash drawer, and the heavy articles such as a typewriter and a copy-
